decrease in cost of Training

## About Test Odyssey

Test Odyssey is a tool for automating functionality of web based applications. It leverages on the capabilities of the popular web based tool – Selenium. Test Odyssey is unique in terms of enabling its users to design automation tests without writing a single line of code! This feature helps in improving test automation productivity by nearly 20-30%. The tool is hosted on Amazon cloud(AWS) and complete test execution happens on cloud bringing up the required test infrastructure on demand!

## Benefits of Test Odyssey

- Using Test Odyssey one can start testing by means of test automation thereby reducing the testing cycle time which enables for a quicker go-to market
- Reduced cost of overall test automation by 80%
- Improved product quality and ease of implementing test automation
- Improved speed of automation – since Test Odyssey enables scriptless automation
- On demand test automation service, pay-as-you-go model

## Test Odyssey Features

### Script-less Automation:

- Does not require you to write a SINGLE line of code
- Built-in **keyword+data driven framework**
- Improves testing productivity

### Built-in Recorder:

- UI based recorder helps testers design automation tests with ease

### Support for Database Testing:

- Connect to DB
- Execute DB queries
- Use query results to verify data against UI

### Object Repository:

- Frequent UI changes are always a challenge for test automation
- Test Odyssey's object repository feature allows testers to implement object property changes quickly across tests

### Import Manual Test Cases:

- Store all test cases within the tool
- Decide which tests to automate and which to not
- Helps in arriving at the percentage of automation

### Execute Tests on Cloud:

- Select the desired OS and browser version
- Run tests on cloud on demand

### Smart Reporting:

- Step by step analysis of test automation results
- Helps in easily identifying defects

### Export Defects:

- Mark defects and export them to formats accepted by bug tracking and test management tools like JIRA, Bugzilla, Mantis and QC

## Test Odyssey Features (Contd)

### Dashboards Depicting Crucial Automation Parameters:

- Helps senior management to track percentage of automation, number of defects, automation progress and execution runs data on project basis

### Support for Continuous Integration using Jenkins:

- Use "Test Odyssey Execution Plugin" to trigger execution of automation tests in Test Odyssey from Jenkins

## ROI in Test Automation using Test Odyssey

*As compared to traditional licensable automation tools available in the market, Test Odyssey increases the speed of test automation by 4.5 times, helps in reducing cost of investment in tools by 85%, cost of development and maintenance of automation suite by 85% and cost of training by 80%*

## Test Automation service using Test Odyssey

- Eka Techserv experts will in detail analyse application to be automated, automate tests and execute them on required browsers using Test Odyssey
- Client can run the automation suite thereafter using Test Odyssey based on requirement
- One team member from the client's organization interacts closely with Ekatech automation experts

## Advantages of this Service model

- Enabling clients to meet their test automation objectives faster
- Automation experts themselves design, execute the tests and provide a stable set of automation tests that run on the required browser set up
- Will build confidence in the client's team on executing tests seamlessly using Test Odyssey
- A stable automation suite will enable client to go for a quicker go-to market

## About Us

EkaTechServ is a product based company based in Bangalore founded in 2011 by Dr. Prakash Mutalik. Dr. Mutalik is a veteran in the software industry and is considered as GURU in software testing. He has earlier been the co-founder of RelQ.

EkaTechServ is known for “Test Odyssey – a cloud based scriptless automation testing tool”. EkaTechServ also specializes in providing test automation services using Test Odyssey.

## MISSION STATEMENT

*“Innovate and Provide High Quality, Cost Effective Products in Software Testing to our customers*

## Our Location :

#890, 15th main, 5th cross, BTM Layout, 2nd Stage, 1st phase, Bangalore – 560076
